2012 Preface

Women make up 49% of China' s population and 46% of its labor force.

In mature economies, women are big buyers and big investors. They make 80% of the decisions related to home improvement, control 70% of online purchases and one driver out of two is a woman.

Companies are investing big to capitalize on these segments and some of them like Lululemon, Renault or MasterCard took specific female-focused initiatives from marketers to target women consumer

Still, there is still a gender gap between companies and female buyers and many of them often failed to attract women because of a simplistic approach of women motivation. One of the reasons behind is that men still dominate most of the companies that sell to women. Marketing and design to women is not just pink color. Pink is not a strategy!

The 2012 edition on Insight Shanghai conference and workshop focuses on women' s affairs from a global and Chinese perspective and explore the expectations and contradictions of female consumers in business, technology and culture.

前言

女性占中国人口的49%和总劳动力的46%。

在成熟的经济环境下，女性是购买力巨大的买家和投资者。80%有关家庭装潢的决定由女性做出，70%的网购由女性贡献，每2个驾车者中就有一位是女性。

一些公司正斥巨资以期占领这方面的市场，它们中的一些，像Lululemon（露露柠檬）、雷诺和万事达卡均开展特别的营销活动以针对特定的女性消费人群。

然而一些公司与女性消费者之间的性别差异仍然存在，而且它们通常会因为对女性消费动机过于简单的揣摩而错失吸引女性消费者的机会。产生这种现象背后的一个主要原因是因为多数经营女性产品的公司仍然由男性主导。针对女性的市场营销和设计并不是简单的把产品弄成粉红色。粉红色并不是市场战略！

2012 insight Shanghai上海国际设计趋势高峰论坛从全球与中国的视野关注女性事务，并从商业、科技和文化等多方面探索女性消费者的期望和矛盾。

上海交通大学
设计趋势研究所

上海交通大学设计趋势研究所是中国最具实力的设计趋势研究机构，主要进行消费趋势、流行色与汽车设计趋势三方面的研究工作。他们建有三个相关数据库：现代中国人审美特征；全球汽车设计趋势；中国城市色彩。

他们擅长消费者细分，为企业找到他们在中国的真正用户，研究他们的需求，建立消费者数据库，整理产品系统，选择和开发适合于中国市场的产品。他们也帮助企业研究中国消费者的审美特征，建立了庞大的中国消费者审美特征数据库。他们对国际设计趋势进行筛选和本土化，使产品更加符合中国消费者的审美习惯。他们为数个国际著名品牌设计了针对中国市场的色彩系统。基于扎实的中国消费者研究基础，他们的设计趋势研究具有非常高的市场价值，帮助企业获得财富和荣誉。他们的客户包括：雅马哈、飞利浦、马自达、松下、GE、联想、上海汽车、多乐士、双龙汽车、阿克苏诺贝尔、上海大众、长虹等。

他们还提供设计趋势培训和设计趋势季报服务。

Design Trend Insititute, Shanghai Jiao Tong University

Design Trend Institute of Shanghai Jiaotong University is China's strongest research institution on design trends. They do research on consumption trends, fashion color and automobile design trends. They have built up 3 databases: Aesthetic features of modern Chinese database, Global automotive design trends database and China city color database.

They excel in consumer segmentation, connecting real consumers to businesses, studying consumer demand, building consumer database, sorting out product systems, selecting and then developing products suitable for the Chinese market. The team also helps businesses to study the aesthetic features of Chinese consumers and select proper international design trends for localization in order to fit the products into the aesthetic habits of the Chinese consumers. The team has designed for many international brands color systems targeting the Chinese market. With a solid foundation in research of the Chinese consumers, the team's design trend research is of high market values for businesses in achieving fortune and fame.

Their clients include Yamaha, Philips, Mazda, Panasonic, GE, Lenovo, SAIC Group, Dulux, Ssangyong Motor, Akzo Nobel, Shanghai Volkswagen, Changhong etc.

They also provide design trends quarterly reports and training service.

John Fu

Vice Dean of Design Department, School of Media & Design, Shanghai Jiao Tong University
Head of Design Trend Institute
Director of the Color Innovation Centre, CFCA

His researches focus on the lifestyle and taste of Chinese consumers and fashion color. From 2001 to 2003, he developed the home lighting products for Philips Lighting in Chinese market. He published *The Social Trichotomy of Chinese Consumers* in 2005 and The Categorizing-Targeting Method in designing study in 2006. Based on the 12-year research on Chinese consumers, he has made Chinese market positioning for many international corporations and design trends analysis for domestic corporations. He will conduct the application of China's national color standards.

傅炯 副教授

上海交通大学媒体与设计学院设计系副主任，设计趋势研究所所长，中国流行色协会色彩创新中心主任。他的研究领域包括中国消费者生活形态与审美特征，流行色。2001 至 2003 年，他为飞利浦照明开发了当时在中国上市的全部家用灯具。2005 年他发表了《中国消费者的简单三分法》，2006 年发表了设计调查方法《类型 - 具象法》。基于 12 年的中国消费者研究，他为很多国际企业诊断品牌与产品在中国市场的定位、为本土企业做行业设计趋势分析。他未来还将主持中国的国家色彩标准的推广工作。

WHAT IS A TREND?

A CREATIVE CROSS-OVER PROCESS

A trend is an emerging evolution which relates to consumers, their feelings, moods and reactions. They lead to new innovations and both reflect and provoke changes in society.

Trend research aims to anticipate consumer expectations. It provides directions for business to create more appropriate products and services. Fundamentally, the goal of future and trends research is to give the competitive edge to business by creating an emotional connection within customers.

The trend process

1 - OBSERVE THE EMERGING LIFESTYLES
What is the current situation of society, culture, technology, business and attitudes?
The impact of social evolutions on the consumption society is significant, and we need to know about these social evolutions in order to anticipate the future of the Lifestyle Industry.

2 - ANALYSE INDIVIDUAL & COLLECTIVE MOTIVATIONS
How will the observations be interpreted and translated?
After the collection and the classification of facts, information from art, fashion, interiors, automotive, architecture, new media, pop music, cinema, business expert opinions and intuition of researchers, we translate the results into SOCIAL TRENDS for different sectors and regions.

We use the MOOD THEORY as a flexible marketing segmentation to organise these components and define a consistent space for future innovations.

3 - DESIGN
What is the vision of the future?
We use detailed CONSUMER SCENARIOS to illustrate why and how consumers will buy, depending upon their mood and the situation.
We create DESIGN DIRECTIONS illustrated by visuals, components, colours.

什么是趋势？

一种跨界的创新过程

趋势是研究消费者的价值观和生活形态的最新状况，以及它们可能发展的方向。

消费者的变化引发了创新，并同时刺激了社会的变化。
趋势研究旨在提前预测到消费者的期望。它指明商业方向，帮助企业创造出更多适合的产品及服务。不仅是价值观与生活形态，如果我们能够预测到消费者审美和情绪的变化，我们就能为企业提供更强的竞争力。

趋势的研究过程

1 - 观察新的生活方式
时下社会、文化、技术、商业和观点？
社会变革对消费社会的影响非同凡响，我们必须要了解这些社会变化的状况，并预测到他们会对人民的生活方式带来什么样的影响。

2 - 分析个体和群体
观察到的现象要怎样分析和理解？
我们收集的信息涵括了艺术、时尚、室内、汽车、建筑、新媒体、流行音乐、电影以及专家的意见和建议。在收集和分类之后，我们将结果纳入“社会趋势”的各个不同领域中。
我们利用包括“情绪理论”在内的不同方法细分不同消费者群体，从而帮助您定位创新的方向。

3 - 设计
未来应该是什么样的呢？
我们用详细的“消费者情境”来阐释在特定的情绪下，消费者为什么会喜欢某种商品，他们又是如何购买的。
我们帮助您整理各种视觉要素，包括色彩、材质、形态和比例，从而帮助您定义设计方向。

你到底什么时候结婚？
上海相亲角与中国当代城市中产女性

孙沛东博士，华东政法大学社会展学院社会学系，女性问题专家

根据在上海某公园相亲角进行的为期近一年的观察和访谈，着重分析了谁是“剩女”，“剩女”话语中的霸权，女性性别角色的历史塑造过程以及市场经济下的社会性别关系重塑，由此剖析了“剩女”现象的社会构建过程。研究结论是：在当今中国，结婚对个人——尤其是女性——在社会生活中的定位占有不可或缺的地位。这种社会对女性在家庭和公共领域的角色期待与这些角色在现实生活中的冲突，自 20 世纪初以来就在各种政治和社会运动中埋下了伏笔。随着经济向市场导向的转型，独生子女政策在城市的普及和城市中产阶层的兴起，以婚姻来规制女性身体以维护社会性别秩序成就了“剩女”话语的流行。

When will you get married eventually?
The blind date corner of Shanghai and China’s contemporary urban middle-class women

Dr. Sun Peidong, department of sociology, school of social development, East China University of Political Science and Law, female affair expert

According to the observation and interview in one blind date corner in Shanghai which lasts for nearly one year, Dr Sun specially focused his analysis on the problem of who are the “left women”, the hegemony on the “left women” issue, the historical shaping process of the gender roles of women and the reshaping of the social gender relationship under market economy and analyzed the social construction process through the “left women” phenomenon. The conclusion is: marriage plays an indispensable role in positioning for individuals, especially for women, in their social lives in contemporary China. The confliction between the expectation of the society on the role that women play in family and public area and reality foreshadowed all kinds of political and social movements since the beginning of the 20th century. With the turning of the economy to market-oriented, the popularizing of one-child policy in cities and the rising of urban middle-class, marriage is used to restrict the body of women so as to maintain the social gender order which leads to the prevalence of the “left women” issues.

The Speaker: Lu Xiaoming

见，或者不见；“变”就在那里

你还在用传统商业思维销售产品给中国女性消费者吗？
我们从企业品牌战略的 4 个方面：渠道、沟通、促销以及服务来比较现有的和传统的商业思维，并以案例说明这些新的趋势对商业实践的影响。
经济变化，女性消费者的价值观在变化，对符号的追求逐渐弱化；女性消费出现了 3 个趋势；结合案例说明这些趋势对品牌传播和产品策略的影响。
1、传统文化的复苏，自信的回归；2、更自我，为自己消费；3、社交媒体普及，女性的表达更自由直接

应对上述变化和趋势，演讲人分享了自己在创立中国第一家有机化妆品零售连锁店“Organic+ 有机家”时创新的商业模式，包括品牌命名和形象、店面选址和设计、产品策略等。“Organic+ 有机家”的成功，证明了追求个人价值的中国女性消费者从复兴的中国传统文化中寻根；另一方面，由于社交媒体的普及，女性获得最新资讯的渠道很广，二三线城市的购买力得到释放。

总结：行业领导者必须是掌握趋势，引领趋势的弄潮儿。

Change

Are you still using the traditional business mind to sell products to Chinese female consumers?
Mr. Lu will compare the 4 aspects of the branding strategies including channel, communication, promotion and service between present and traditional business thinking mode and illustrate the influence these new trends will bring to the business practice.

The economy situation changes, the values of female consumers changes and women’s pursuit for symbols during consumption weakens gradually. There emerged 3 trends in women’s consumption field. Mr. Lu will explain how these trends will affect brand communication and product strategies.
1. The return of confidence, the rejuvenation of traditional culture
2. More self oriented, consume for oneself
3. Social media become popular and women can express themselves more freely and directly

In response to the changes and trends mentioned above, Mr. Lu will share his innovations to business mode through his exploration and verification on such aspects as brand naming, brand image, location, store design and product strategy when he established China’s first organic cosmetic retail chain store Organic+. The success of Organic+ proved that the rejuvenation of traditional Chinese culture enables the Chinese female consumers to find their roots out of traditional values while seeking their own values. On the other hand, the popularity of the social media ensures women to get the latest information wherever they are which releases the purchase power of the 2nd and 3rd tier cities.
Conclusion: who grasp and lead the trends will be the industry leaders.
